Control Selected Source:

This will only be visible when Document Camera or Blu-Ray is selected. To return to the menu select **Close Controls** or **Sources**.

Please clean the projection surface thoroughly after writing so that the projected image is clear.

Display Blank:

Tap to have the display turn to a black screen. When active the button will be highlighted blue.

Adjust the Lights:

Press **Lights** button or select a preset on the **Source** page

With the power off, you can still control the lighting by pressing the Lights button.

Elizabethtown College

Information & Technology Services

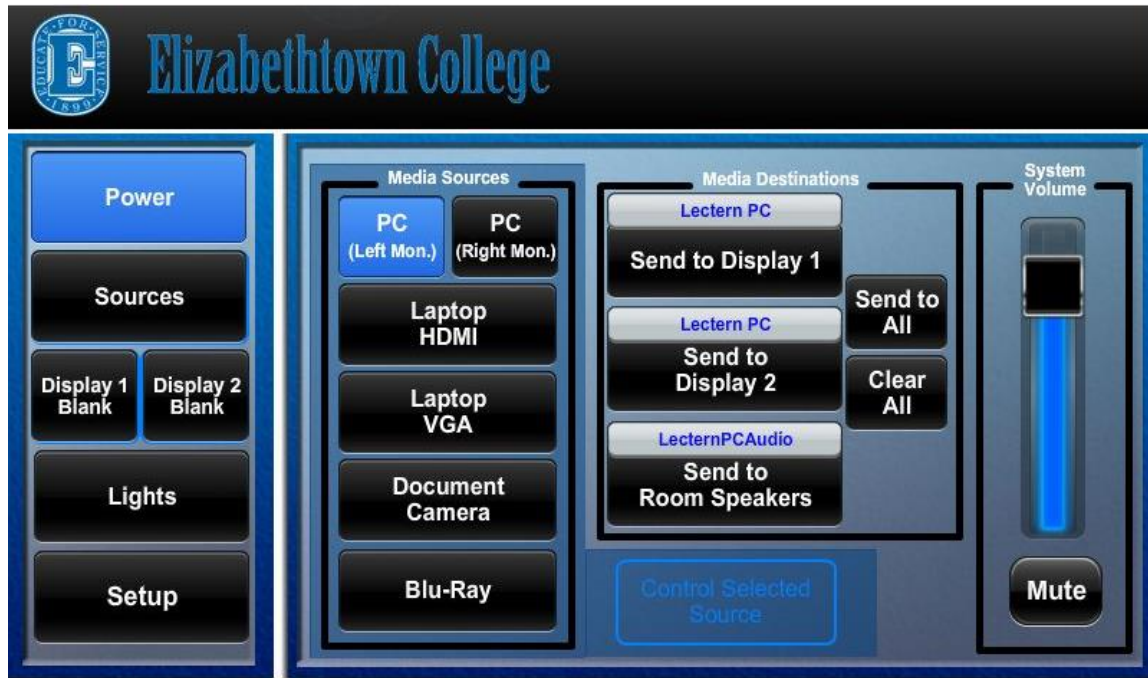

1 **Power on the System:** Tap the **Power** button.

2 **Select a Source:**

Lectern PC: Check that the PC is on. The PC is located in the side door.

Laptop: Connect the HDMI or VGA/Aux cable to the laptop.

Document Camera or Blu-Ray: Once the source is selected you can control the device by pressing **Control Selected Source** button.

Important: If your source has sound, be sure to select **Send to Room Speakers**.

3 **Shutdown the System:**

Tap the **Power** button and confirm that you wish to power off the podium. The power is off when button is no longer highlighted.

Restart computer when you are finished.
